nanoSmooth.[®]
pure

nanoSmooth pure - An advanced innovative series for a safe Bond Reformation Soft Smoothing and Complete Smoothing (Straightening), having **0% Formaldehyde and Aldehyde** and releasing no chemical off-gases, based on pioneering patented Molecular Biomimetic technologies, to be applied within In Salon service and complementary Home Care service.

Professional

RE
SMOOTH

Resmooth

Revive Smoother for Natural Hair, **Refine Smoother** for Coloured Hair and **Replenish Smoother** for Blonde Hair to be applied in Salon for a safe Bond Reformation Soft Smoothing & Complete Smoothing (Straightening) services restructuring hair bonds to a straight formation for soft & straight hair fibres. It forms solid inner layer to seal natural nourishing nutrients inside hair fibre to enable enhanced inner fluent nourishment and self healing as well as outer layer to construct outer foundation and insulate hair fibre against damaging environmental sources. It reduces friction between hair strands for freedom of movement, enhances colour shine, prolongs colour retention and keeps colour from fading so hair is smooth, straight, healthy, toned, elastic, easily designed and manageable as well as luminous having intensified natural shine and colour vibrancy.

RE
INFUSE

Reinfuse Shampoo

Reinfuse Shampoo for All Hair Types purifies and rebalances hair and scalp prior to In Salon service. It detoxifies them by cleansing away and removing excess follicle-clogging sebum, fatty acids, dead skin cells and environmental dermal residues as well as balancing and refreshing them keeping their natural pH.

We understand our clients' desire for a healthy natural look perfect hair which is toned, elastic, smooth, straight, soft, detangled, humidity-proof, frizz controlled and manageable, having intensive hair growth, reduced friction between hair strands for freedom of movement and intensified natural shine.

We also understand our clients' need for having the freedom of choice for a soft smooth or a complete smooth (straight) hair.

Understanding our clients' needs, we set up extensive Research & Development with tailor-made hair Convalescence and Smoothing technologies and developed nanoSmooth pure - An advanced innovative series for a Bond Reformation Soft Smoothing and Complete Smoothing (Straightening), based on pioneering patented Molecular Biomimetic technologies, to be applied within In Salon service and complementary Home Care service.

This innovative series was developed to benefit our clients in achieving hair perfection of beauty and health fulfilling their needs and desires.

Home care

All Hair Types Reinvent Insulator

Reinvent Insulator for All Hair Types insulates hair fibre against damaging environmental sources as humidity, salty water and UV rays, providing anti-dryness protection under heat and making it elastic.

It lightly smoothes hair using heating sources as sunrays, blow dryer and flat iron as well as speeding up drying time and enhancing shine so hair is healthy, toned, smooth, elastic, soft, humidity-proof, static and frizz controlled, easily designed and manageable having intensified natural shine and colour vibrancy.

Consecutive usage of nanoSmooth pure Home Care range regains hair perfection as a stand alone service and as a complementary service to prolong In Salon Soft and Complete Smoothing (Straightening) results.
