rexten

softSmooth.[®] rexten

An advanced innovative series for natural Treating & Soft Smoothing Hair Extensions & Wigs, based on pioneering patented Molecular Biomimetic technologies, to be applied within In Salon service and complementary Home Care service

Rexten Shampoo

Rexten Shampoo comprises highly substantive particles performing Enzyme alike affinity to hair and the followings:

- Gentle and effective cleansing of hair and scalp
- Balancing and refreshing hair and scalp
- Detangling and reducing friction between hair strands for freedom of movement and improving combability

Rexten Sustainer

Rexten Sustainer comprises highly substantive particles performing Enzyme alike affinity to hair and the followings:

- Forming outer layer to protect and insulate complete hair fibre from roots to ends against damaging environmental sources as humidity, salty water and UV rays, providing anti-dryness protection under heat and making it elastic
- Knitting hair fibre back to hydrophobic state implementing Lotus Effect of minimizing water & dirt adhesion
- Sustaining and prolonging soft smoothing texture
- Sustaining shiny, soft, smooth and elastic hair
- Speeding up drying time
- Taming and Controlling Frizz
- Detangling and reducing friction between hair strands for freedom of movement and improving combability

Rexten Safeguard

Rexten Safeguard comprises highly substantive particles performing Enzyme like affinity to hair and the followings:

- Reforming hair fibre texture to soft smooth
- Entering gaps between cuticles
- Infiltrating nourishing nutrients inside hair fibre
- Forming solid inner layer to seal nourishing nutrients inside hair fibre
- Sealing open cuticle layer
- Forming permanent outer layer to protect and insulate complete hair fibre from roots to ends against damaging environmental sources as humidity, salty water and UV rays, providing anti-dryness protection under heat and making it elastic
- Knitting hair fibre to hydrophobic state implementing Lotus Effect of minimizing water & dirt adhesion
- Taming and Controlling Frizz
- Detangling and reducing friction between hair strands for freedom of movement
- Enhancing shine, softness, smoothness and elasticity
