## Relamine Restructurer

Relamine Restructurer for All Hair Types to be applied in salon for swift Bond Reformation nanoLamination restructuring hair bonds for soft & smooth hair fibres. New technology & formula comprising highly substantive nano polymers performing affinity to hair structure to ensure ultimate recuperation & reconstruction during a swift nanoLamination as follows: correcting the cross-sectional shape of hair to make it smooth and undistorted, supporting the self-restorative functions of hair forming outer layer to construct hair outer & inner foundation by closing open cuticle layer and sealing natural nourishing nutrients inside hair fibre to enable enhanced inner fluent nourishment from roots to ends and self healing, insulating hair fibre against damaging environmental sources as humidity, salty water and UV rays, providing anti-dryness protection under heat, light smoothing using heating sources as sunrays, blow drier and flat iron, speeding up drying time, enhancing shine, creating hair that is supple and resilient, detangling and reducing friction between hair strands for freedom of movement, enhancing colour shine, prolonging colour retention and keeping colour from fading, resulting perfect hair fibre, healthy, toned, smooth, elastic, soft, humidity-proof, static and frizz controlled intensified natural shine and radiant colour vibrancy, easily designed and manageable

550 ml

# Home care

150 ml/550 ml

## Relaminare Shampoo

Relaminare Shampoo for All Hair Types gently and effectively cleanses hair and scalp as well as balancing and refreshing them keeping their natural pH. It enhances colour shine, prolongs colour retention and keeps colour from fading. It also detangles and reduces friction between hair strands for freedom of movement and improved combability so hair is healthy, toned, elastic, soft, fresh, light, static and frizz controlled, luminous having intensified natural shine and colour vibrancy

150 ml

## Relaminare Sustainer

Relaminare Sustainer for All Hair Types insulates hair fibre against damaging environmental sources as humidity, salty water and UV rays, providing anti-dryness protection under heat and making it elastic. It lightly smoothes hair using heating sources as sunrays, blow dryer and flat iron as well as speeding up drying time and enhancing shine so hair is healthy, toned, smooth, elastic, soft, humidity-proof, static and frizz controlled, easily designed and manageable having intensified natural shine and colour vibrancy
